

CONTINENTAL TRANSPORT
& LOGISTICS

the way things go

SEAMLESS FLOW, THE WAY THINGS GO

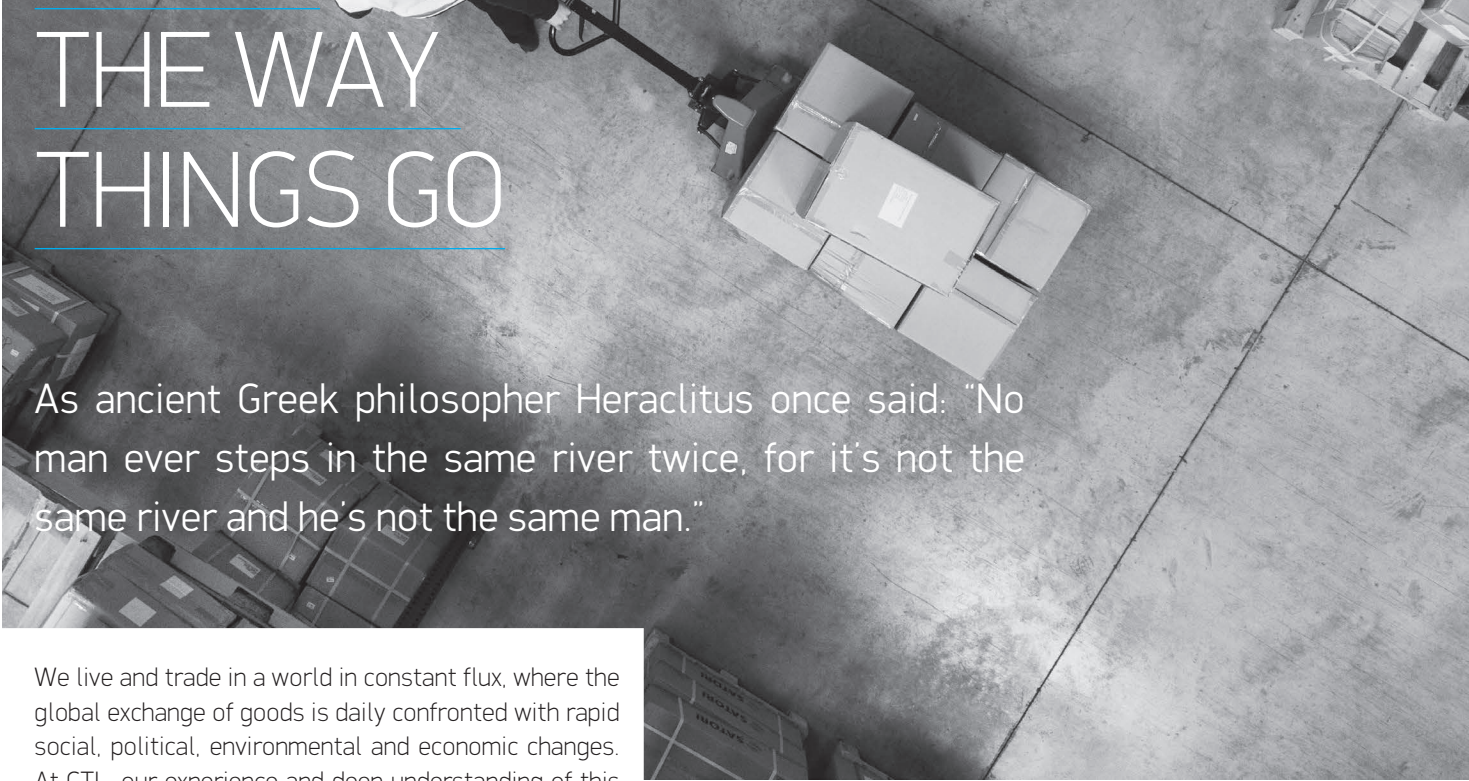

CTL is an integrated transportation and logistics provider who knows how to connect the dots, optimize the flow of goods, and build bridges between global carriers.

With CTL, things travel smoothly and seamlessly around the world. We cover the full spectrum of international transportation through road, ocean, air and handle all the complex logistics that come along with it. Our broad range of services spans international forwarding and procurement, distribution and aftermarket support as well as end-to-end supply chain management. CTL has it all in just "one stop".

Our biggest asset is the compact size of our company, allowing for flexible and responsive solutions to every project. No matter how big or small your demand is, we approach every request with the same sense of responsibility and care. Our in-house, high-standard warehouse facilities in Aspropyrgos, is key to responding to any distribution demand in the most efficient way.

Our robust industry portfolio, featuring businesses across all key markets, proves CTL to be the partner of choice for lean and optimized supply chain solutions. In today's highly competitive trading environment, you can count on us. We are a dedicated ally that enables the success of your business and helps you achieve your goals. At CTL, we know the way things go.

SEAMLESS FLOW, THE WAY THINGS GO

As ancient Greek philosopher Heraclitus once said: "No man ever steps in the same river twice, for it's not the same river and he's not the same man."

We live and trade in a world in constant flux, where the global exchange of goods is daily confronted with rapid social, political, environmental and economic changes. At CTL, our experience and deep understanding of this flux allows us to easily adapt to the ever-changing logistics landscape and to be proactive towards any given situation.

That's why we believe in a holistic, more customized approach to your needs. The size of our expert team as well as our private warehouse space and our centralized operations system, allow us to develop unique, time and cost-optimized supply chain concepts through immediacy and direct contact.

As the world keeps changing, so do we. At CTL, we're committed to growth and renewal, and to maintaining the high-quality standards and innovation of our services so we can take on any future challenge, regardless of scope and complexity.

Standards

In accordance with the TÜV NORD CERT auditing and certification procedures, CTL is certified with an ISO 9001:2015 for the provision of international forwarding and fourth-party logistic (4PL) services.

At CTL, we take the continuous refinement and monitoring of our management systems very seriously, in order to continue to be a reliable partner and deliver best-in-class products and responsive supply chain solutions that meet your expectations. We believe in maintaining high-quality standards of services and operations and we invest in our valued collaborations founded on mutual trust, proven results and long-term success.

OUR

SERVICES

THE SHORTEST ROUTE, THE SMARTER WAY

Road transport is CTL's specialty. By nurturing a tightly connected network of correspondents all across Europe, we move your freight from Point A to Point B fast and safe.

CTL covers a broad range of road transport services that connect you with all European cities with efficiency and safety. Our state-of-the-art fleet of fully insured trucks guarantees the timely delivery of your shipment wherever it needs to go.

Our heavy-duty vehicles are able to carry part and full loads, general groupage cargo and any type of freight you need, such as liquid bulk cargo – whether it's oil or chemicals – ADR shipments of hazardous and flammable goods, or items like plastic packaging, perishables and cosmetics that require controlled temperature conditions during their journey.

For more compact consignments, CTL's van options are designed to get your goods where they need to be even

faster without any stops in between. Our speed vans fit up to 3.500 kg of cargo and are able to carry from 5 to 10 pallets.

Since we know that every project is unique, CTL reaches beyond conventional road transport to also provide its customers with smart solutions that fulfill optimized, door-to-door and just-in-time (JIT) deliveries to any destination within Europe, for any type of cargo.

With sensibility and awareness towards our sector's ecological footprint, CTL offers green transport products that align to the most up-to-date European standards for reduced carbon dioxide emissions.

In accordance with the terms and conditions of the treaty on International Road haulage Contracts (CMR), all of our road transport services ensure reliability and maximum transparency during our joint journey. The security of your cargo is our number one priority. Additional and suitable insurance plans are at your service so that your shipment arrives to its destination safe and sound.

ACROSS OCEANS, ALL OVER THE WORLD

CTL teams up with leading shipping companies and a global network of certified agents, in order to offer the best loading solution for every consignment.

CTL connects you with the world through ports all around the globe and makes sure your trading operations stay afloat at all times.

Our sailings are consistent and reliable so that your shipment gets from here to there in a timely and cost-effective manner. Combined transport solutions via ocean & road are also available, allowing for a variety of tailored plans that optimize your freight forwarding route. With our transport insurance, you can be sure that your delivery is safe and remains flawless along the way, with no external factors compromising your load's integrity.

Ocean Freight Products

- Full-load shipments (Full Container Loads, FCL)
- Partial load shipments (Less Container Loads, LCL) Consolidation shipments

CARRIED BY AIR, RIGHT ON TIME!

When time and extra safety is of the essence, CTL brings you round-the-clock air freight services that reach any destination in the world. We deliver your cargo wherever it needs to be, safe and fast.

CTL's strong connections with a first-class network of IATA accredited travel agents, allow us to ship your cargo to/from all International and European airports with speed and security. Our adaptable options include transport insurance and customs clearance, saving your company time and money along the

way. CTL's air freight services have ensured the shortest transit time for precious and time-sensitive cargo from the US, all European countries, and from every location around the world.

Our air freight services reach beyond the airport. We can combine air and road freight opportunities to deliver

your goods door-to-door, ahead of time, any time. Let us assist you in choosing the best plan for your cargo based on your deadlines and budget, with full transparency and reliability guaranteed. With CTL's air freight products, the possibilities are endless and the sky is the limit.

ALL YOU NEED IN JUST “ONE STOP”!

With CTL's private warehouse facilities in Aspropyrgos, benefit from tailor-made solutions across the full spectrum of your supply chain. With no intermediaries involved, our in-house logistics products are responsive to whatever needs your business may have.

Does building an in-house infrastructure seem costly and out of reach? CTL has you covered. We support businesses of any scale by providing flexible and strategic 4PL logistics solutions that best serve your entire supply chain requirements.

In our own, operating warehouse your goods are in safe hands. Taking go-betweens out of the equation, allows us to offer bespoke solutions with minimized costs, designed just for you. Insourced warehousing means safer, faster and more competitive logistics that ensure the most efficient control, storage and distribution of your goods.

Our warehouse operates under the ISO 9001:2015 certification according to TÜV NORD's highest standards, providing lean and optimized supply chain processes for every need.

- Labeling & price tagging
- Distribution network
- Stock picking – bar coding /scanning
- Reverse logistics (e.g. repairs, recycling, disposal, returns).

YOUR WAY, ALL THE WAY

Today's fluctuating markets entail challenges that require quick solutions on a case-by-case basis. CTL's biggest asset is our ability to adapt and respond fast to all case scenarios. Thanks to our experienced team and our long-term collaborations with demanding corporations, we are achieving effective results, even under the most unfavorable conditions.

For instance, during the Covid-19 lockdowns, we managed to quickly create and put into effect the highest level of safety protocols for all our customers. Or, when nation-wide strikes hit the Italian ports, which serve as the main gateway to Greece, we managed to find new, alternative routes for our trucks and secured the fastest

transit time for all our deliveries. Even when capital controls took effect in Greece, compromising the welfare of trade between international carriers, we made sure our customers' supply chains were running smoothly without any interruption by creating alternative and personalized solutions.

CTL can help you achieve the best

results no matter what. Together, we can develop special integrated projects that match your high standards. Whether it's handling the flow of the most demanding transportation project, taking care of the logistics of your exhibition, or oversee and organize your own, in-house warehouse, we are up for any challenge.

CUSTOMS

Whether it's road, air or ocean freight, with CTL the flow of goods in and out of a country has never been easier. Let us handle all the necessary procedures of customs formalities, clearance, management of documents, waivers or T1 process for transshipment, with our simplified solutions. Our experienced team of experts can make your shipment process easy and hassle-free.

- EORI issue
- Analytical cost estimates
- Transshipment of goods subject to customs duties T1
- Customs clearance of imports / exports
- Documentation processing of import / export
